

8 April 1985

MEMORANDUM FOR: Chief, Security Staff, NBPO/OL

FROM :

SUBJECT : Injury Report

1. At approximately 0750 hours I noticed James Sullivan, an MCI employee, in front of the MCI trailer with his left pants leg pulled up over his knee. His leg was bandaged and blood was running down his leg.

2. I asked him what had happened and he told me he had cut his knee using a grinder at about 0730 hours. MCI personnel had made no attempt to take him for medical attention until he demanded assistance. At this time arrangements were being made to transport him to McLean in a company dump truck for medical attention.

3. This incident was reported to Hilltop by radio at 0755.
